

## **GRISSOM ARB, IN UTILITY SYSTEM DESCRIPTIONS**

**General:** Grissom Air Reserve Base (ARB) is located 15 miles north of Kokomo, IN.  
Base Size: 1,233 acres, 98 Buildings.

**System Descriptions:** The following is provided only to give an approximation of the size, scope and general description of the system(s). Any numbers should only be used for estimating purposes. The following system parameters are approximations:

### **Electrical System:**

Single 12.47 kV feeder from Miami Cass County REMC.  
Primary Distribution (Underground): 24,700 LF.  
Primary Distribution (Overhead): 15,500 LF.  
Secondary Distribution (Underground): 9,600 LF.  
Secondary Distribution (Overhead): 8,500 LF.  
Peak Demand (Annual): 3,503 kW.  
Total Demand (Annual): 17,694,528 kWh.

### **Natural Gas System:**

System installed 1989 through 1996.  
Approximately 13,500 LF of assumed HDPE, sdr 11 ranging from 8" to 1".  
No cathodic protection.  
Natural gas delivered to base via 8" main and distribution at 50 psig.  
Annual consumption: 3,279,600 MCF
