MEMORANDUM FOR HQ AFCESA/CEOI

FROM: HQ AFCA/WF  
203 West Losey Street Room 2100  
Scott AFB IL 62225-5222

SUBJECT: Certificate of Networthiness (CoN) with Operational Parameter for Air Force Parametric Cost Engineering System (PACES) Version 5.1

1. PACES version 5.1 is hereby issued CoN number CoN1-AS007023-200704-00-0 with one operational parameter as specified below.
2. A desktop assessment on PACES version 5.1 revealed an area that requires an operational parameter. To maintain Air Force Terrestrial, Air and Space Communications Network connectivity, the operational parameter must remain in force. Operational Parameter: Although PACES does meet the definition of an application as defined in DODD 8500.1, it does not meet the definition of a system as defined by DODI 5200.40 and therefore does not require its own SSAA. IAW AFI 33-202, the site SSAA would need to be updated to reflect the implementation/installation of PACES via a process similar to that used when installing COTS products on a base-level workstation. Failure to comply with these stipulations is cause for revocation of this certificate.
3. This CoN is for this version only. The Program Manager must notify the POC below of any subsequent releases or changes to the system's security, interoperability or sustainability to determine if a new networthiness assessment is required.
4. My POC for PACES is Mr. William Griffiths, HQ AFCA/WFSL, DSN 779-6987 or e-mail: [afca.wfsl@scott.af.mil](mailto:afca.wfsl@scott.af.mil).

A handwritten signature in black ink, appearing to read "D. D. Morton".
