Fire Protection Career Field Manager

2.6.1. Documentation. Document and certify completion of training.

2.6.1.1. Identify **current duty position requirements** by circling the subparagraph number or letter next to the task statement. *Note:* All entries shall be made “in pencil.”

2.6.1.2. Certifying in a new duty position: For **core and critical tasks** the trainer and certifier evaluates the airman’s current qualifications and validates the airman’s ability to complete the task. The trainer, certifier, and trainee then enter their initials and certified date.

2.6.1.3. Transcribing from the old document to the new CFETP. Use the new STS to identify and certify all current and past task qualifications.

2.6.1.3.1. For tasks previously certified and still required in the current duty position:

2.6.1.3.1.1. For **core and critical tasks** the certifier evaluates the airman’s current qualifications and validates the airman’s ability to complete the task. The certifier and trainee then enter their initials and new certified date. (They are in essence “recertifying” the individual.)

2.6.1.3.1.2. For **non-core duty position tasks**, the trainer evaluates the airman’s current qualifications and validates the airman’s ability to complete the task. The trainer and trainee then enter their initials in column 3D and 3C respectively and the current date is entered in column 3B.

2.6.1.3.2. To **transcribe previous certifications for tasks not required in the current duty position**, carry forward only the previous completion dates (not the initials of another person). If and when these tasks become a duty position requirement, recertify the trainee with the current date and trainer, certifier, and trainee’s initials.

2.6.1.4. Documenting Career Knowledge. When a CDC is not available, the supervisor identifies STS training references the trainee requires for career knowledge and ensures, as a minimum, that trainees cover all mandatory items in AFMAN 36-2108, Utilization and Classification of Air Force Military Personnel.

2.6.1.4.1. Two-time CDC course exam failures. Because fire fighter CDCs are part of a national certification system that has been accredited by the International Fire Service Accreditation Congress operated by Oklahoma State University, the waiver authority for two time CDC failures for this career field rests with the Air Force Career Field Manager (AFCFM) located at HQ AFCESA. See AFI 36-2201, *Developing, Managing and Conducting Military Training Programs* for specific waiver procedures.
