

WHITEMAN AFB, MO UTILITY SYSTEM DESCRIPTION

General: Whiteman AFB, located two miles south of Knob Noster in Johnson County, Missouri, is an Air Combat Command (ACC) installation that organizes, trains, equips, and maintains combat-ready forces for rapid deployment and employment. The host command is the 509th Bomb Wing, overseers for B-2 operations and maintenance. Whiteman AFB occupies 4,627 acres. It is comprised of 1,359 facilities. This consists of 42 administrative facilities, 665 military family housing (MFH) facilities, and 652 industrial facilities.

System Description: The following information provided is only an estimate and is subject to change.

Natural Gas: Natural gas is supplied to the base from Williams Pipeline Services via a single 12-inch coated and wrapped steel line at 400 psi. Distribution on base is handled by approximately 160,000 linear feet of piping ranging in size from 2-inches to 6-inches in diameter. The distribution system is composed primarily of plastic pipe, although some coated and wrapped steel is also still in use. The distribution system is capable of handling the current and projected demands of the base, with a current average use of only 21% of available capacity.
